David Cameron among his people!

The result of the general election – the British lost.

Most people in the West have been deluded into thinking that we live in a democracy. This is not surprising for their secret rulers control the mass media that determines the way they think. However, their so-called democratic leaders have gone against the national interest, so often, and for so long that the public have become angry and disillusioned. The numerous unnecessary wars, the thousands of costly EU rules that restrict our freedom and the fact that Britain has become like an inefficient, overcrowded third world country has led millions to question parliament's agenda.

David Cameron, like all recent Prime Ministers, gained his position despite the majority of Britons rejecting his party. Many of those who did vote Tory only did so to prevent Labour from winning. For decades we have endured ministers who had little knowledge of the department they have been in charge of. Many times through ignorance or political dogma, ministers have created serious problems. Instead of being discarded they have been put in charge of another department. This situation arises because ministers are not chosen for their knowledge, but their allegiance to secret societies or political groups. Only a tiny percentage of the public belong to a political party. This drastically reduces the choice. There are moves at the moment to establish a vote of "no confidence" in David Cameron. But the majority of the public are coming to see that parliament is not working for us.

The basic problem is that we allow Zionists to select our political leaders. At a general election, their stooges are given the safest constituencies where they are bound to be elected. Although, some members of the public voted for them, they played no part in their selection. To become a political leader one needs to tour the country giving speeches trying to gain public support. They would need to broadcast clear ideas that would solve Britain's problems and secure a better future. However, our Prime Ministers take up office with the public knowing little or nothing about them. When Tony Blair became Prime Minister, many people were asking "Tony who?" This much despised ex-leader was schooled in politics by Lord Levy, who together with his son, work for the Israeli government. There is no opposition because all three main parties are under Zionist control. Of course there are numerous backbenchers but they will not defy the leadership. If they mention anything that opposes the Zionist agenda they fear being ejected from the party. The party whips and the press also stop objectors from speaking out. We will have to find our own leaders.

Western governments are snooping on every citizen's e mails, phone calls and text messages etc. They say that it is merely to track terrorists and criminals. Free-thinkers know it is also to silence those who are intent on obtaining

truth, justice and a fair form of governance. At the end of the 1930's the anti-war movement, made up principally of nationalists, was growing, and there was a possibility that Churchill would not get his war. A new 18B law was invented and rapidly introduced, to criminalise the actions of peace protestors. Without charge or trial around one thousand of them were rounded up and put into jail, often in worse conditions than British prisoners of war.

The secretive Fabian society that works within parliament, think, Peter Mandelson, tells its members "that it is their intention to gain control of all nations. It will not be done in a violent way as with the bloody Bolshevik revolution but by gradually changing public attitudes. We will have the public embracing with enthusiasm, what previous generations had regarded as unacceptable." The 1960's saw the deliberately contrived social revolution. At the start teenagers were told not to listen to their parents as they were square, stupid and old fashioned. They were urged to do "their own thing". Here the wisdom of ages started to be lost. These changes caused many problems which have become widely accepted as something we have to live with.

Britons would like to have a close working relationship with their relatives in Australia, New Zealand and Canada, but Parliament is only interested in being a friend of Israel. As result of the US and UK governments spending countless billions on the massive Zionist programme, these two countries are the most in debt. The situation is made worse by governments relying on a system of Jewish usury to finance its programme. As one banker put it "I care not what party is in power, so long as I control finance I will dictate government policy."

So usurers dictate government policy by selecting our puppet leaders. To fool the public they are helped by many Jewish movements recruiting, bribing, intimidating and controlling public thinking. For instance, British nationality had always been determined by parentage. Thatcher's Zionist-led government changed this, so that if a British couple had a baby while out of the country the child was deemed an alien and had no clear right to reside in the UK. Whereas any foreigner that had a baby while in our country could have the child registered as a full British citizen.

In 1290 King Edward 1st, probably our greatest ruler, expelled the Jews from England. Of course it would have been impossible to ensure that they all left. There remained a secret, underground subversive movement that found ways of gaining political control. In the 17th century they came across Oliver Cromwell. They regarded him as just the kind of ruthless opportunist they had been waiting for. Among other things Cromwell had extreme views on the way families should spend Sunday. He believed the whole day should be spent in gloom and doom pouring over the bible. There would be no time for sport, outdoor activity or enjoying oneself. This fanatic would get nowhere while England was ruled by a King.

In return for their money and assistance, the politically ambitious Cromwell was prepared to do whatever the Jewish group desired. What the aliens wanted was for Jews to be re-admitted to England and the ruler-king method of governing the country brought to an end. (For Jews would not be able to have any political power for as long as a king ruled.) Cromwell's treachery resulted in the English Civil war which saw brother fighting brother, and father fighting son. King Charles was executed, the usurer Jews from mainland Europe and other troublemakers were allowed back in and Cromwell was made Lord Protector. Within 60 years they set up the Bank of England, which should have been called the bank of Jewish usurers. Since this time anti-Christ Jews have steadily tightened their grip over politics, commerce and all major decision-making. (This is the truth, not the BBC version of history!)

The nine-year-long Jew instigated war to overthrow the ruler-King and put their puppet Cromwell in charge as Lord Protector, cost the lives of at least three million English, Scots and Irish. When Cromwell died the public had a holiday and celebrated. Parliament then created an illusion that the monarchy had been restored, but kings never had any real power ever again. Jewish usurers were also responsible for the French and Russian Revolutions. They achieved recruitment through socialist-style rhetoric. Zionists still achieve their objectives today partly through the Labour, Socialist and Communist organisations that they set up and control. These are backed up by the phony Conservative parties. Every British Prime Minister since, and including, Winston Churchill were selected for office by the influential Zionist movement. Boris Johnson and Nigel Farage are their two most recent hired hands, with Jeremy Corbyn in reserve position, just in case voters look for an alternative.

Fortunately, many Jews and Jewish organisations have become highly critical of Israel and the Zionist movement. The Stamford Hill Orthodox Jewish community went as far as burning an Israeli flag in their high street. The Labour MP Gerald Kaufman, has for many years, been a lone voice in the House of Commons speaking out against Israel and Zionism. There has always been some who had denounced and left Judaism, working within European nationalist parties. Brother Nathaniael (born Nat Kapner) was born to a Jewish family. He now describes himself as an Orthodox Christian. He has a tremendous website on Brovids.com Using short video clips he exposes the evil antics of the American and Israeli governments.

Money has come to determine who wins elections! Every voter needs to ensure that the candidates who get elected are the ones who will truly fight in the national interest. Don't be swayed by the Zionist owned and controlled propaganda machine any longer.

The Second World War was fought to bankrupt European nations and reduce their influence in the world. It was planned by self-interested groups that want absolute political power for themselves. Foremost among the warmongers were power-seeking bankers, of the type which are best described as "anti-Christ usurers". Second was the Zionist Federation which was eager to take control of Palestine. Thirdly, there were many communist groups of the kind that can always be relied upon to support Zionists and financiers. Winston Churchill, the man most responsible for starting the war, causing the death of around 60 million Europeans, and bringing a premature end to the British Empire, was deeply involved with all three groups. In order to fool the public into thinking he was defending our country, he left the Liberal Party and joined the Conservatives. This drove most of the real patriots out of the Conservative Party into the political wilderness, where they remained. Later, financiers and the Zionist Federation set up the EU in order to destroy individual countries, and bring Europeans under their control. This is being achieved by removing national borders, dictating government policy, and putting members under unsustainable levels of debt, as we have seen recently with Greece. If not stopped, usurer-type bankers and Zionists will achieve their objective of creating an anti-Christian world government dictatorship over which they would rule. This is why we must get out of the EU. The aforementioned groups set the political agenda for the main political parties in the West. The public is continually tricked into voting for them by the Zionist-controlled mass media. Since 1914 Jewish usurers have initiated wars and revolutions in many countries to create chaos.

In 1945 America emerged as the world's superpower and soon proved to be a violent and aggressive bully. It used military attacks, financial control, subversion and divisive tactics to topple governments it couldn't control, and replaced them with its own vassals. These acts were referred to as "regime changes". Since 1945 the US government has, on average, bombed one country every year. In addition to its unwanted interference just about everywhere, it has troops stationed in at least one hundred countries. It further advances its domination through the UN, the World Bank, the IMF, Bilderbergers, Freemasons, the Fabian Society, and many other self-interested organisations.

Due to Winston Churchill's insistence on developing a special relationship with the American government, we have abandoned the countries we had close ties with and allied ourselves with something thoroughly evil. See how the people you voted for have deliberately created divisions. They set workers against management, and women against men. They started mass coloured immigration programmes saying that "racial tension is our greatest weapon". They invited Muslims into the West and then attacked and bombed their countries, creating further anger. We can see by the way same-sex marriage has rapidly been implemented simultaneously in many countries, in various continents that we have a single ruler. Democracy does not exist. Many of our best people have tried to enter politics but have been prevented by those in power, claiming they were "too patriotic". Translated, that means insufficiently anti-British. Bear this in mind at all future elections. The British and American governments were secretly behind the dissolution of our empire. They set up and organised terrorist groups in our colonies for the purpose. No sooner had these countries gained independence when parliament began inviting millions of natives to come to the UK. Treacherous politicians excused their actions by saying these people still had some connection to the "Mother country". But soon this invitation was extended to virtually everyone in the third world. In 1961 the people of Tristan Da Cunha were brought to the UK when a volcano erupted on their island. They were told they would have to go home as soon as it was safe to do so, and they did. More recently parliament has described

virtually everyone determined to live in our country as a British citizen. Asylum-seekers are being encouraged to come to Europe as permanent settlers. Many are gaining citizenship, and later the right to vote, that they are not entitled to. Public inaction is allowing the Zionists within the American, Israeli and British governments to have their dreams fulfilled. That is the destruction of European nations. Despite what they say, Western governments are encouraging Muslims to attack European countries. They are doing this in an attempt to weaken Christian nations and make them even more subservient.

The lying US government is stepping up its atomic weapons programme by pretending that Russia is a threat to the world. For decades after the second-world-war the American government falsely held the world in fear of a possible nuclear war between Russia and the West. This was called the "cold war". It was however, complete fiction because Russia at the time was controlled by the same bankers, Zionists and world government groups as the USA. (The same kind of people that financed and carried out the Bolshevik and most other revolutions.) The horrific atom bomb had been created by a near all-Jewish team in the US. They only succeeded in this through the treachery of the likes of Winston Churchill.

I'm English ..and fined
PATRIOT Christopher Molyneux was fined for calling himself ENGLISH. JPs fined the dad £75 with £75 costs after he refused to label himself British on a census form. Molyneux, 56, of Poynton, Cheshire, returned it, objecting to the question "What's your ethnic group?" He would not tick the "British" box.

Could these terrorists be your new next door neighbours? Say that they are not British and you could get a jail sentence for "racism". The ruling parties freely discriminate against Britons in favour of foreigners. In 2001, Chris Molyneux was hauled into court and fined for describing himself as English on his census form. Europeans must wake up to the fact that we are governed by a ruthless enemy. To obtain freedom, stop voting for the parties that the BBC and tabloid newspapers promote.

We regularly hear how our children often leave school near illiterate and innumerate, but no improvements are ever made. Our students have fallen behind many of their rivals in the Third World. The Comprehensive system of education was introduced by Harold Wilson's government to dramatically lower standards, and Conservatives have no intention of correcting the problem. If parents don't unite and demand action nothing will happen.

In 2007, the anti-white European, Lord Philips said he would like to see Sharia law operating in the UK. Zionists will do anything to destroy our European identity, culture and Christian religion. They are responsible for the entire foreign invasion of the West. They introduced the "Race Acts", making it a crime to defend one's own country. The Anti-Christ mob that wanted Jesus crucified haven't gone away, they are more powerful than ever. You may not see them, but they control the actions and policies of Western governments. That is why the major political parties

never produce a clear manifesto at election times, and are never honest about their long-term objectives. It doesn't matter which major party comes to power nothing will change.

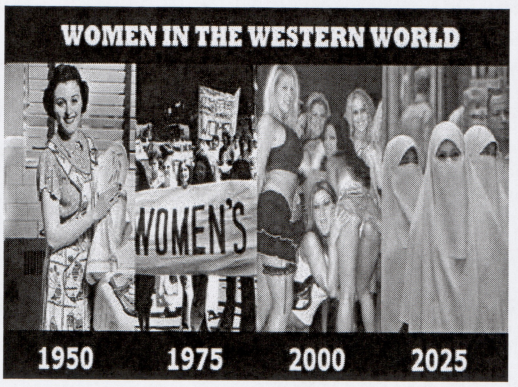
2015 GENERAL ELECTION: A JEWISH MANIFESTO
THE BOARD



Britons can never expect justice from the courts as they are controlled predominately by anti-British aliens. Over the decades, we have had to endure a succession of the most senior judges who can only be described as an internal enemy. Among them there have been Chief Justice Lord Philips, Lord Neuberger and Lord Woolf. They should never have been allowed to live in the UK, let alone occupy such important positions.

We need to produce more of our own food, yet parliament, in league with speculators, mainly foreign, are building houses for profit all over England. They are not needed, but are intended for unwanted foreigners who have not yet come. If we do not fight for our country now we will become a poor, dispossessed minority of third-rate citizens.

Most Europeans have been made sheep like, never questioning any of the American government's most fanatical and brutal actions. People in the West, are generally not interested in what should concern them the most. In most Christian countries the standard of living and the quality of life for the majority have been reduced, while they have been made dependent on others for produce. Other nations, when bullied, bombed and forced to acquiesce to American demands, rebel. Such natural opposition is not tolerated by the US government that labels them insurgents and proceeds to murder them with its military. People in the EU have come to view such American violent aggression as normal. This is because they have been brainwashed by the Zionist-controlled media. All European countries have four main problems. Mass coloured immigration , the EU which forces them to conform to unpopular dictates over which they have no control, the World Bank and IMF system which is loading countries with ever-growing levels of debt. The fourth problem is that the main party candidates for whom the public principally vote are aligned with the American and Israeli governments. Not until Europeans start thinking about what is important can they free themselves and the rest of the world from political tyrants.

Zionists openly brag of how they set Parliament's agenda. They have in fact determined everything important that the British government has done since 1939 and set the White House agenda in America for even longer. How is it that the public is not aware of these most important facts? Virtually, every means of acquiring knowledge is in the hands of Jews. They control book distribution and the news agencies where journalists and television companies obtain their reports. Not only do they own most of the newspapers but many journalists and reporters are Zionists who give a slant to everything they write. The entertainment industry is run by them and they own all of the Hollywood film companies. The movies and TV programmes they make are not just for amusement. Most scripts are written with the same political bias, with the intent of getting the viewer to believe their often-repeated lies.

Zionists set the education syllabi at every level. It not only has an anti-white European and anti-Christian, Marxist bias, but ensures that our children leave school unable to compete with Jewish teenagers for the important jobs.

In 1939 through, Winston Churchill, Zionists took complete control of parliament and immediately sent us to war with Germany. Even before the war had ended Zionists plotted to get rid of our empire and bring an end to the British aircraft and shipbuilding industries. As soon as the British lost their Empire and were isolated, Zionists started to create the EU in the hope Britons would accept it as a replacement. This bloc strategy is destroying nation states and creating a subordinate population with no unique identity. Zionists started the mass non-white immigration and

asylum seeker programmes to destroy the white European nations, and they have the cheek to complain about "racism". It is not being Semitic that draws criticism, it is worshipping Mammon. The majority of Semites in the world are Arabs. None of them have ever complained of anti-Semitism!

In 2001 the Israeli Prime Minister said "Every time we do something, you tell me America will do this or that ... I want to tell you something ... Don't worry about America ... We the Jewish people, control America and the Americans know it ... Israel may have the right to put others on trial, but certainly no one has the right to put the Jewish people and the State of Israel on trial."

Every month we see reports of children as young as five being given sex lessons and hate-your-own-kind holocaust propaganda. This is part of the Zionist education programme that our youngsters are subjected to. The America and the UK have the lowest standards of education outside of the third world. Children from Montserrat who were brought to the UK for safety were appalled at the low standards in our schools. A thirteen-year-old boy said to his parents, "You must take me home to Poland. If I remain here when I leave school at sixteen I will be unemployable." Parliament ensures that our education system fails our children, yet if you read Jewish newspapers you will regularly see them congratulating themselves on the achievements of their sons and daughters in Jewish schools, taught by Jewish teachers.

ABOVE ALL REMAIN AWARE OF THIS

There is a one sided battle going on at the moment. Zionists are winning easily because the people are not aware that a war is being fought. Our enemies working through parliament have taken complete control of the police, the NHS, education and the law courts. They have ensured that these institutions have all become incompetent. As a result the number of avoidable fatalities in our hospitals has increased while prescription drugs have caused widespread mental problems and doctors constantly fail their patients. Despite the good work of some officers the police force has been made inefficient. Successive governments have invited murderers and violent criminals to come to the UK where they are made more welcome than decent, honest and hard-working Britons. Mass immigration alone has caused crime rates to escalate. Few people realise that since 1939 Zionists have had control of the British armed forces. The first duty of our armed forces is to defend our national borders. Due to alien-control, no British government has been prepared to do it.

Occasionally the public is allowed to read the truth. Peter Oborne wrote in the Daily Mail on November 21st 2015, "Cameron wants to be like Tony Blair" – he "slavishly follows the policies and strategies of his predecessor, frequently seeking Blair's advice, particularly over foreign policy." The government is supposed to remain impartial, on the EU referendum. It has recruited Populus the 'Britain is stronger in Europe' pro EU propaganda group to help it. At the time of the referendum Conservatives will join the Blairite wing of the Labour Party with Peter Mandelson and Jack Straw's son heading them, to try and rig a 'stay in' vote. This week's renewal of plans for bombing raids in Syria is also a combined operation between David Cameron's Tory Party and Tony Blair's advisers." The stench in British politics arises from parliament continually serving the Israeli government, multi-national corporations and arms manufacturers. These most important fact are seldom mentioned. As Robert Swinton, a former editor of the New York Times wrote "journalists often conceal the truth, because no editor dares print what he really thinks."

We allow Zionists to continually broadcast their untruthful version of history, while promoting politics which go against the national interest. For instance they were allowed to make a film about the life of Oliver Cromwell which portrayed him as a national hero. In fact he was financed, directed and abetted by our greatest enemies, Jewish usurers from mainland Europe. During the twentieth Century Jewish organisations managed to use patriotism and nationalism to get Europeans to go to war for them. This changed when they wanted whites to accept the Afro-Asian invasions of their countries. Patriotism and nationalism were then made dirty words. Zionists were even able to introduce new laws making opposing our racial destruction (genocide) a criminal offence. This universal enemy, through determination and arrogance, has achieved what would appear impossible. Even the Orthodox Jewish communities were unable to prevent the Anti-Christ movement from becoming the most influential branch of

Judaism. Over the years we have fought many unnecessary wars. However, the war to defeat Zionism is the one that we now need to engage in with our utmost determination.

Europeans have been reluctant to fight for themselves. The English Civil War, The French and Russian Revolutions, the Napoleonic wars and both the First and Second world Wars were all fought for the benefit of Jewish usurers. Europeans do not realise this because the means to disseminate information is in the hands of extremist Jews. Christian leaders should have spoken out, but they have taken the easy option and pretended that they haven't noticed. Our enemy is very clever and deceitful, it has been able to have the public believe that its placemen are far-seeing, moral and decent. This is changing as the public have become disillusioned and angry with the likes of Tony Blair, Henry Kissinger, David Cameron, Greville Janner, Barack Obama, John Kerry, Angela Merkel, Robert Maxwell, Rupert Murdoch and Peter Mandelson.

Changes are constantly being made to further the interests of the "New World Order". Multi-national companies have spread toxins and chemicals throughout our planet. These have included gender-bending chemicals that have created genetic mutations in wildlife. It has also made many men effeminate and prevented them from carrying out the normal role of defending their nation. Zionists are using this to their advantage. In Australia, we see the politically-correct "gay" community, under Zionist mind-control, demonstrating against those trying to stop the influx of thousands of undesirable aliens.

Everyone that has tried to point out the problems of mass immigration and the EU has been harassed and intimidated. To prevent criticism of its unacceptable legislation the government banned free speech. Mentioning the downside of immigration was made a "hate crime". For forty years innocent protesters have been hauled into court as though they were criminals. Joe Pearce produced the Young National Front's magazine "Bulldog". This was in the 1970's when black crime was being covered up to a large degree. There were however just a few accounts in newspapers of incidents where black immigrants had murdered whites. Joe Pearce took details of some of these atrocities and put them into a single article. For this he received one of two "racialist" jail sentences. No one in the UK was going to be allowed to speak for, or protect the British. This was at a time when black on white crime was far more common than the other way round.

The Dowager Lady Jane Birdwood was hauled into the Old Bailey twice. Once for producing her anti-immigration newspaper called "Choice" and once for her book "The Longest Hatred". She had cited in her book what some great men, including Benjamin Franklin and Martin Luther, had said of Jews. Jane took a pile of books into court to prove that she hadn't misquoted them. The judge said that they weren't disputing the accuracy of what she had written, but she had been charged because in doing so it could engender feelings of anti-Semitism. To which Jane replied "I have only written the truth." To which the judge replied "Truth isn't necessarily relevant any longer in an English court." This statement shocked us all. Truth should not only be the basis of law, but it is the first casualty in war. Margaret Thatcher was Prime Minister at the time. She said, "I regard London's Jewish community as my people." Unfortunately not many Britons saw the significance of that remark.

Nigel Farage took over a redundant party that no one wanted. He was given freedom to speak of the unmentionable and received generous publicity for doing so. He wasn't saying anything different from the National Front of the 1970's, the BNP or Enoch Powell who had been driven out of the Conservative Party and into the political wilderness for daring to mention immigration. Everyone who publicly spoke of the taboo subject suffered the full force of the political establishment. Then along comes Nigel Farage! No mobs of screaming Reds threatening to stop his meetings. UKIP had no difficulty in hiring halls like true nationalists do, and its policies fall short of getting the British their country back. One wonders why? Perhaps it is because all critics of mass immigration and the EU have had the full force of organised Jewry directed against them and Nigel Farage has our internal enemy's full support. But let us not jump to conclusions we must look at the facts.

So who is in charge of UKIP's immigration department? Who is the man that could be dealing with this most pressing issue? Don't laugh! UKIP's guru is a Jew called Steven Woolfe. He has spent his working life first as a barrister and then as a counsel for an international hedge fund manager. As UKIP migration control officer he calls

for an ethical stance on immigration which he wants based on merit, not race, religion, colour or nationality. Might we point out this would ensure the continued disappearance of the White British nation. Douglas Carswell defected to UKIP from the Conservative Party in Clacton, where a by-election was held. Nigel Farage had said that those trying to get into the UK with HIV shouldn't be allowed in. The day after he was elected Carswell supported the Conservatives, saying that having HIV should not be a reason to exclude people who want to come and live here. So much for the pro-British stance of UKIP's first MP!

The Jewish News dated 13th November 2014 informed us that UKIP's Friends of Israel group is to hold its largest event so far, with a Westminster reception addressed by its new MP Douglas Carswell. In attendance also will be the Party's Foreign Affairs Spokesman, several MEP's and prospective candidates. Rabbi Shneur Odze, a UKIP candidate organised the meeting. The Jewish News article continued "We're very pleased by the level of interest received from members and elected officials. It demonstrates how far UKIP has come as a party and how much support the Jewish community has within UKIP. This should greatly assist us (the Jewish community) in lobbying our MEP's – on Israel and domestic issues close to our heart." Carswell is due to meet the Jewish Leadership Council next month." This will no doubt be for interrogation purposes to ensure that he is totally subservient to organised Jewry. It was obvious that the power brokers who have monopolised British politics for hundreds of years would not allow a new party to snatch power from them. During 2015 everyone who considers the British Isles to be exclusively our homeland, or believes that we should be in control of our own country has been expelled from UKIP. This has ensured that the most deserving candidates will not be elected. Another damning action by Nigel Farage was his willingness to support Tony Blair in his bid to become President of the EU.

Richard Desmond, a Jew, donated £300,000 to UKIP. He owns the Daily Express and Daily Star newspapers. He also produces "adult" magazines and has a portfolio of "adult" TV channels. Among his other enterprises he has a business that offers fixed rate, sex calls. He gave £100,000 to the Labour Party when Tony Blair was Prime Minister. Does he really support these two parties that seem to have such different political objectives? Nigel Farage admits that one reason why UKIP gets more votes than nationalists is because it has more money.

In the Jewish News 20th November 2014 there is a half page, full colour article devoted to bragging about the takeover of Trafalgar Square by Jews for their Chanukah festival. This event, which almost coincides with Christmas, grows bigger every year. Parliament constantly goes against our national religion and its beliefs, while threatening, intimidating and prosecuting Christians who uphold the moral code. This has created a situation where many Jews believe that Judaism has already eclipsed Christianity as the UK's number one religion. The Chanukah candles were lit in 2014 by Boris Johnson. Along with most senior politicians, he regularly attends synagogues and Jewish meetings to prove that he has both feet firmly in their camp. All of our problems have resulted from electing fanatical, Jewish-backed political parties without thinking of the consequences.

Labour, Liberal and Conservative politicians, govern by deceit, they give unconvincing reasons why they should do something, but ensure the public doesn't hear the many sound reasons why they shouldn't. Nationalists have been trying to prove this to the public for nearly a hundred years. The Establishment, thought-police won't tolerate free-thinkers. Those who go along with government-organised mass murder through illegal wars are applauded. Throughout history every nation has fought to defend its borders. This is essential, as well as being common sense. But for the past sixty years, any Europeans that have wanted to defend their country against alien invasions have been labelled dangerous extremists. In our once sensible and patriotic country, such treacherous government nonsense would have been met with a forceful opposition. (Muslims are not our enemy, although many are taking advantage of conditions that have been created by Zionist politicians.)

Europeans must take back control of Europe. Every White patriot who is determined, honest and articulate should start broadcasting this message, with the intent of building up a political group that can depose a politician from one of the main parties. We cannot allow ourselves to be ruled by our enemies any longer. Spread the truth and it will set us free! We now believe that we can and will win. Read this journal at, theflameuk.com
